

## APG México (Automotive Plastics Group Mexico)

**PRODUCT CATEGORIES:**

autoparts

**CLIENTS:** OEM, Tier 1

**Thermoplastic Injection Molding of Various Components and Assemblies.**

A vertically integrated plastic injection molder for automotive and industrial applications, with proven experience in engineering solutions and innovation. Shoot and ship, 2K, overmolding, insert molding, welding, assembly, and foaming with brand new machines from 300 to 2,400 Tons. APG is strategically located, making it easy for the company to reach any location within Mexico, along with plastic part development and knowledge of complex injection molding. Main OEM clients: Tesla, VW, Rivian and Stellantis. Main T1 clients are Brose, Martinrea, CIE, Aptiv and Stant.

**Main competitive advantage/differentiator:** large presses, vertically integrated, complex engineering solutions.

**Products:** interior class A appearance components, black functional parts, HVAC components, cable guides, canisters, fuel housings, brackets, powertrain components, electric vehicles components, sunroof channels.

**Services:** manufacturing of automotive components by plastic injection molding, including value added operations, such as welding, assembly, foaming, etc.

**PRODUCTS FOR:**

**Autoparts:** drivetrain; suspension, steering; wheel and tire; body and exterior; interior, climate control, HVAC; electronics, electric parts; fuel cell system; battery, capacitor (EV, HV, HCV), small/general parts.

**Tooling:** drivetrain; suspension, steering, wheel and tire, body and exterior; interior; climate control, HVAC; electronics; electric parts; fuel cell system; battery, capacitor (EV, HV, HCV); small, general parts.

**CAPABILITIES:**

300 to 2,400 Ton injection mold machines; high speed and gas assisted injection molding machines; insert and 2 Shot rotary molding; secondary finishing and complex part assembly; specialized automation; joining technologies; spin and sonic welding.

**CERTIFICATIONS & HIGHLIGHTS:**

ISO/TS 16949; VDA 6.3; established in Mexico in 2017; 180 employees in México.

**PROCESSES FOR:**

**Autoparts:** plastic injection molding, foaming, assembly, packaging, inspection.

**Tooling:** plastic injection molding, foaming.

**MEXICO**

San Martín Obispo No. 1A, Lt. G-A-4,
