

PRODUCT CATEGORIES:

autoparts, tooling & machinery, design & engineering

CLIENTS: OEM, Tier 1, Tier 2

Manufacturing, Maintaining and Repairing of Plastic Injection Molds. Plastic Parts.

Integrity is the largest tool shop in Mexico. We can do the whole process of tool manufacturing of plastic parts, from the design phase (in Queretaro) to local supplies, new mold manufacturing, repair and engineering, changes and implementation capabilities, tool refurbishing and manufacturing of plastic parts.

Main competitive advantage/differentiator: we are driven to be versatile. Our 11 facilities are designed to collaborate as well as work independently. The volume of Integrity machines and technology means we can customize and handle the most complicated projects.

Products: injection molds: Interior / exterior trim; headlamps / tail lamps; rocker; air dam; grill; cowl; wheel flare; pillar; instrument panels: climate control / HVAC.

Services: new mold manufacturing, repair and engineering change implementation, tool refurbishes, advanced feasibility, mold making (polishing, in-house spotting presses), molding (try-out, overflow part runs, short production runs), landing and LCC support, cnc machining (5 axis high speed machines, gun drilling and 2D machining).

PRODUCTS FOR:

Autoparts: body & exterior, interior, climate control/HVAC, driving support/security, battery/capacitor (EV,HV, HCV), small/general parts.

Tooling: body & exterior, interior, climate control/ HVAC, driving support/security, battery /capacitor (EV,HV, HCV), small/general parts.

Design & Engineering: body & exterior, interior, climate control/HVAC, driving support/ security, battery/capacitor (EV,HV, HCV), small/general parts.

CAPABILITIES:

45,500 kg. (50 T) crane capacity, large capacity boring mill, 7-axes gundrill, EDM and spotting presses, 24/7 operation for quick-turn around, 320, 550, 75 1200, 2300 T 1K and 2300 T 4K inj. Presses, full process weld, large saw cutting.

CERTIFICATIONS & HIGHLIGHTS:

ISO 9001:2015; IATF; 20 years of experience; +200 skilled team members; Integrity Mexico was established in 2012 and has 158,000 sq. ft. of manufacturing facilities; member of AMMMT.

Plants: Queretaro, Nuevo Leon

PROCESSES FOR:

Autoparts: plastic injection molding.

Tooling: plastic injection molding.

Design & Engineering: plastic injection molding, foaming, blow molding.

Others: casting, die casting, stamping, repair and engineering change implementation for plastic molding.
