

## Select Tool de Mexico

**PRODUCT CATEGORIES:** tooling & machinery, design & engineering

**CLIENTS:** OEM, Tier 1, Tier 2

**Manufacturer of Fixtures and Gauges, Automation and Specialty Tooling.**

Select Tool de Mexico is a world-class organization providing complete and innovative manufacturing solutions, specializing in gauges, check fixtures, automation, and specialty tooling for the automotive and other markets. The company is a trusted full-service supplier from concept, design, machining and assembly to major OEMs, Tier 1 and Tier 2 suppliers. With a dedicated team of highly experienced program managers, designers, engineers, technicians and toolmakers with the depth of experience to consistently deliver projects that not only meet but exceed customer expectations. Projects are carried out with a commitment to cost, quality, and exceptional customer service. With a growing team of over 225 professionals in modern state-of-the-art facilities, the company leads through continuous, strategic investments in its people, technology and infrastructure.

**Main competitive advantage/differentiator:** the company controls every step of the value chain, from the design process to the machining of components, assembly, and quality assurance. This level of vertical integration allows for quality control, mitigation of risk, and the ability to give the utmost value to our customers.

**Products:** checking fixtures, specialty tooling, and automation equipment.

**PRODUCTS FOR:**

**Gauges, fixtures, jigs:** drivetrain: suspension, steering; wheel and tire; axle, brake, body control; interior; climate control, HVAC; driving support; security; drivetrain system (EV, HV, FCV); small, general parts.

**Tooling:** drivetrain: suspension, steering; wheel and tire; axle, brake, body control; interior; climate control, HVAC; driving support; security; drivetrain system (EV, HV, FCV); small, general parts.

**Design and Engineering:** drivetrain: suspension, steering; wheel and tire; axle, brake, body control; interior; climate control, HVAC; driving support; security; drivetrain system (EV, HV, FCV); small, general parts.

**CAPABILITIES:**

35,000 sq. ft. manufacturing and offices; six machining centers; 3 to 5 axis-4 CNC programming stations; power mill; two welders; ferrous, stainless, aluminium; carbon and EDM cutting; PLC robot programming; pneumatic, hydraulic and electrical assembly.

**CERTIFICATIONS & HIGHLIGHTS:**

ISO 9001:2015; ISO/IEC 17025:2017.

Plants: Queretaro

**PROCESSES FOR:**

**Tooling; Gauges, Fixtures, Jigs; Design and Engineering:** assembly, stamping, hydroforming, machining, casting, die casting, forging, sintering, aluminium extruded parts, roll forming, welding, plastic injection molding, foaming, blow molding, plastic extruded parts, rubber-metal parts, rubber injection molding parts.
