

# LINAMAR DE MÉXICO

**Business Line:** Components, Metal forming, Others, Plastic Molding

**Location:** Coahuila, Durango, Tamaulipas

**Sector:** Autoparts, Design and Engineering, Machinery, Tooling

**Service:** Balance shafts, Bedplates, Clutch housing, Connecting rods, Covers, Cylinder block, Cylinder head, Drivetrain: differential cases, Precision gears

**Type of Client:** OEM, Tier 1, Tier 2

**Description:** Manufacturing & Assembly of Precision Auto Parts, Scissor Lifts, Light Metal Casting

**Full Description:** Linamar Corporation is an advanced manufacturing and product development company where the intersection of cutting-edge technology and deep manufacturing expertise is creating solutions that power vehicles, motion, work and lives of the future. Linamar Machining and Assembly Canada, Mexico Group supplies precision metallic powertrain components, modules and systems to automotive customers. Linamar began operations in Mexico in 1998 and has six facilities strategically located in the states of Coahuila, Durango and Tamaulipas with capabilities in light metal casting, scissor lifts and or assembly precision machining of engine and transmission components such as cylinder heads and cylinder blocks, camshafts, balance shaft assemblies, gears, clutch modules, shafts and shell assemblies, differentials, PTUs, housing and covers, among others.

**Products:** engine: camshafts, cylinder head, cylinder block, balance shafts, connecting rods, covers, bedplates; transmission: shafts, precision gears, clutch housing, covers and other transmission components; drivetrain: differential cases, precision transmission. scissor lifts and or assembly precision machining engine and transmission components.

**Capabilities:** Metal Forming: robotic welding, laser cutting, metal forming, stamping, painting and assembly. Forging: Hatebur high speed hot horizontal forging, conventional vertical forging, cold forming, ring rolling and radial forging. Machining and assembly: advanced automation and robotics, CNC expertise, complex assemblies, hydroforming, heat treatment. Light Metal Casting: gravity and low-pressure aluminium, die casting, high pressure aluminium and magnesium die casting.

**Certifications and Highlights:** ISO / TS 16949 and ISO 14001 in their four facilities in Mexico; IATF 16949 / BQRS; established in Mexico in 1998; 4,525 employees in Mexico; member of CANCHAM Mexico.

**Address in Mexico:** Carlos A Herrera Araluce #205, Parque Industrial Carlos A Herrera Araluce, Gomez Palacio, Durango,

**Address in Canada:** 287 Speedvale Ave. West, Guelph, Ontario, N1H 1C5, Canada. +1 519 836 7550
